SERVICES

CONYERS

NO TWO FAMILIES ARE ALIKE SO THEIR FAMILY OFFICE AND PRIVATE WEALTH SERVICES SHOULD BE EQUALLY BESPOKE. CONYERS OFFERS OUR CLIENTS A TEAM OF PROFESSIONALS DRAWN FROM VARIOUS AREAS OF OUR PRACTICE TO BEST-SERVICE THE UNIQUE NEEDS OF EACH CLIENT.

PRIVATE CLIENT & TRUST

Conyers Cayman Private Client and Trust team has a long established reputation for providing intelligent and innovative trust and wealth management advice to some of the world's wealthiest clients.

Our private client attorneys regularly advise on the creation of offshore trusts for international clients with a focus on succession planning and dynastic trust creation designed to preserve a family's wealth over generations. We also have extensive experience in assisting individuals and families in creating structures to further their philanthropic endeavours, with the establishment of charitable trusts and foundations.

Additionally, Conyers has an experienced trust litigation team and has represented trustees, executors, and beneficiaries globally on a range of contentious trust matters.

FAMILY OFFICE SERVICES

Our private client and offshore corporate and finance legal attorneys work together as a dedicated team to support our clients in the day-to-day administration of the structures that support the family's wealth.

We can provide a full suite of legal services to make the process of setting up a Family Office or acquiring residency, as smooth as possible. We pride ourselves on communication, responsiveness, efficiency and dependability and we fully respect the need for strict confidentiality of our clients' affairs.

PRIVATE EQUITY & INVESTMENT FUNDS

Investment funds and private equity are an integral part of any Family Office portfolio. Conyers' dedicated team of fund attorneys will work with your Family Office beyond the initial set-up/structuring phase to assist with continuing operations and long-term business objectives.

We nurture long-standing client relationships with our broad client base, which includes leading asset management groups, financial institutions and prime brokers, many of whom have been with us for over 20 years. We represent many innovative and significant hedge, venture capital and private equity funds for start-up funds and provide specialist advice on the day-to-day operations of funds established in the Cayman Islands.

AIRCRAFT & YACHT FINANCING

For many of our clients, the proper management of major assets including private aircraft is an important part of their overall wealth management plan. Our attorneys have extensive experience advising clients on financing and ownership structures for aircraft and yachts that are best-fit for their needs and maintain strong relationships with the Aircraft and Shipping registries in the jurisdictions that we operate in.

CLIENT SERVICES

When it comes to running a Family Office, we can provide ongoing corporate, trust and management services via our Conyers Client Services group, which is licensed to provide corporate and trustee services in the Cayman Islands, Bermuda and the BVI. Additionally, we help Family Offices alleviate the administrative and operational challenges resulting from increased regulatory and compliance requirements. Our experience in multiple offshore markets allows us to identify regulatory issues and provide strategic and commercially sound advice on how to navigate them.
